devoted his life to children. He will be sorely missed, but never forgotten.

Congratulations to our new Governor Doreen Pellittieri and her team of Lt. Governor's. It was apparent all incoming leaders are going to have another great Kiwanis year. I want to extend my very best wishes to all of them and I look forward to working together during the upcoming year.

You will also notice in the photos the beautiful upper bathhouse has been completed. Thank you to all those helping hands who helped us realize this dream.

As you have read throughout the ESK, Kamp Kiwanis has been having several challenges, as a result of some severe weather. I just received a call from Kamp Director Rebecca Lopez letting me know that heaving rain storms have collapsed the retaining wall near Lake Janis. Everyone at the Kamp is safe and sound, but we are going to need to rebuild the retaining wall. Anything your club can do to help us, through donations or volunteering would be greatly appreciated. Thank you to all who have already sent donations to help.
