

New York District Kiwanis 2010-2011 Young Children Priority One Club Achievement Report

As Governor Mike and his Mavericks seek to drive membership by returning to the core of what it is to be a Kiwanian, we would like to ask your club to re-focus on one of Kiwanis International's fundamental service programs – Young Children Priority One (YCPO).

Reflecting on why we are Kiwanians brings to mind our service to the children of the world. It is why most of us joined Kiwanis and why new members will join our clubs.

Involving members in serving the children of the world will not only bring in new members but retain our current members as they see the positive impact of our clubs. Child development research shows that our service has the greatest and longest lasting impact when it affects young children from pre-birth to age 5.

During our 2010-2011 service year, Governor Mike will be issuing banner patches recognizing any NYD K-Family club that supports Kiwanis International's Worldwide Service Project and completes projects in two (2) additional YCPO categories. These projects may be service projects, fundraising or educational/awareness campaigns.

The areas of service identified by Kiwanis International for Young Children Priority One (YCPO) are listed below. Please place a check on the area of service which your club's projects addressed and on the line after the each of the three (3) areas describe your projects including if they were service projects, fundraisers or educational/awareness campaigns.

Club Name: _____ Contact Person: _____ Email: _____

Address: _____

Maternal and Neonatal Health _____

- Fetal Alcohol Syndrome (Project Description)
