

Please join us for an update from Stony Brook Medicine
on Tuesday, January 12, 2021 at 7 p.m.

Join us as Stony Brook Trauma Center highlights some innovations in injury prevention. Telehealth and virtual programming have been something the United States imagined would take years to accomplish. The COVID-19 pandemic made this a reality in just a few months. It's the silver lining in such a difficult time. Stony Brook Trauma Center has adapted existing programs like teen safe driving and tai chi to a virtual format. We are also transitioning our very popular Teddy Bear Clinic children's safety program to a classroom video and online game! The Stony Brook Trauma Center staff are excited to share these new updates with you!
